## **PRODUCT RANGE AND RETAIL PRICE LIST 2022 (excluding VAT)**

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE BUT CAN BE SECURED WITH A 50% DEPOSIT

### **PLEASE READ THE FOLLOWING INFORMATION CAREFULLY BEFORE ORDERING YOUR MILESTONE KITCHEN**

Milestone Kitchen units are manufactured from solid timber. You are buying a natural timber product so guarantees are difficult to define because the behaviour of the wood cannot be predicted with confidence. Wood may shrink, warp, split or crack over a period of time, or not at all. Chipboard, which is more commonly used in the manufacture of kitchens, is made in a factory and is predictable but we prefer the warm character of wood, a natural material which grows in a forest. It comes with knots, resin, grain and variable moisture content. No 2 pieces are the same. Cracks, imperfections and colour variations will form part of your Milestone Kitchen's unique character and should not be seen as defects. We do not use ANY chipboard in any part of our kitchens.

**A Milestone Kitchen is not meant to be perfectly finished, super smooth or even 100% square.**

**BUT, a Milestone Kitchen is sufficiently straight and square to fit into normal building tolerances. It is strong, well designed and constructed, solid, highly sought after and made by South Africans from South African products (only some of the hardware and tools have been made elsewhere).**

**If you order a Milestone Kitchen and it falls outside these quality guidelines we will give you a full refund if you return your order to us.**

### **IMPORTANT INFORMATION**

**The timber in our units has stabilised to the humidity of the KwaZulu-Natal Midlands. Those of you who live in areas of lower humidity like the Karoo, Namibia or Botswana and other inland areas might find that the Pine tops will crack as the timber adjusts to the less humid conditions of your location. In this case we recommend that you order your units without tops and finish them off with stone or hardwood tops from your area. Or you can order your units with our Pine tops and accept that you might have to replace them if the cracking is unsightly. Pine tops constitute roughly 5% of our unit prices.**

**Similarly, for those of you who live in areas of high humidity such as the north coast of KwaZulu-Natal or Mozambique, you might find that your units develop yellow stains from the resin in the timber seeping out through the paint. Light sanding and additional coats of the provided touch-up paint will eventually seal the timber surface and stop the stain.**

### **PLEASE NOTE THE FOLLOWING GENERAL INFORMATION RELATING TO THE PRICE LIST**

- Prices do not include VAT.
- VAT is not added to international orders.
- Prices do not include the cost of delivery.
- Prices do not include any appliances except the Butler Sinks.
  - The tops are supplied unsealed.
- The front and inside of the drawers are painted. We can quote you for painting the bottom, if this is required.
- The floor units and wall units are not painted at the back but we can quote you for this. Tall units and islands are painted at the back.
  - The units are not painted underneath but we can quote you for this.
- We do not cut holes for the sinks unless we have the sink in the factory: see our FAQs about this.

- In order to lessen our environmental impact we do not like to wrap our units in heavy plastic, but most delivery companies do use blankets during delivery. If you are organising your own delivery we can give you a quotation to wrap your units in bubble wrap to protect them during transportation.
  - The Milestone Kitchens standard colours are interchangeable between the units.
- You may choose your own colour from Dekade, Plascon or Dulux colour charts. This incurs a 10% surcharge.
  - You may adjust the dimensions seen on the price list to suit your needs. This incurs a 10% surcharge.
    - We can quote you for a custom made unit once we have agreed on sizes and design.
  - You may choose to have legs, plinth, recessed plinth or castors on any range at no extra cost.
- You may choose from Silver Knob Handles, Silver Cup Handles, Antique Cup Handles, Antique Knobs, Silver Ring Pulls or Silver Arch Handles for any range.
  - The 5% deduction on tops does not apply to the 7 Piece Starter Set Special.

#### IMPORTANT INFORMATION REGARDING MEASUREMENTS

Milestone Units are not designed to fit perfectly together in one continuous line. Our units are designed to be free standing. This gives you flexibility in arranging and adapting your units to the size of your kitchen space.

- All measurements are in mm.

- Units ordered without tops are finished at a height of 860mm, for our 40mm thick wooden tops, unless another top thickness is given.

- Units can be ordered 'flush end' if you want them to butt up against a wall or against each other.

- Units can be ordered without tops. This results in a 5% decrease in price.

- Wall units and tall units such as Grocery Cupboards are measured across the width in the middle of the unit and exclude the cornice. Remember this in your calculations.

The different ranges have different cornice measurements:

- o African Allure cornice overlaps by 114mm in total = 57mm on each side
- o French Flair cornice overlaps by 155mm in total = 77.5mm on each side
- o Swedish Style cornice overlaps by 50mm in total = 25mm on each side

- Units can be ordered with a 'dead end'. The door at one end of the unit will be replaced by a fixed panel instead of a door. This might be done where two units join at a corner.

- Make sure that the units you order can fit through your kitchen doors. The Corner Units, the Deluxe Grocery Cupboard and the Islands cannot fit through an ordinary size door.

- You must confirm your measurements IN WRITING via email. We will not be held responsible for delivering the wrong size unit unless it is different from the size on your carpenter order.

- You have the option of drawing up your own quote on our excel quote template. Ask us to send you our quoting document. We will go through this carefully and make sure everything is correct.

**WE BELIEVE STRONGLY IN OUR PRODUCTS AND THE CAREFUL THOUGHT BEHIND EACH DESIGN BUT ACCEPT THE POSSIBILITY THAT OUR PASSION MIGHT NOT BE SHARED BY EVERYONE.**

**WE RESPECTFULLY ASK THAT YOU DO NOT ORDER A MILESTONE KITCHEN IF YOU DON'T SHARE OUR PHILOSOPHY.**

**THE 7 PSSS (our famous 7 Piece Starter Set Special) with Pine Tops R64 000 (excl. VAT)**

This set has been very carefully structured to give you, the client, the best possible deal as well as being economically feasible to the factory. The only changes you can make to the units in the set is to make the units smaller than the measurements shown on the price list. Units cannot be changed, swapped or altered in anyway.

THE FOLLOWING SIZES OR SMALLER APPLY TO THE SPECIAL OFFER	WIDTH	DEPTH	HEIGHT	SOLID PINE TOPS	ADD FOR ASH
1. Sink Unit with space for D/W (sink not included).	1800	600	900 (+100)	R 12,731	R 5,144

--	---------------	---------------	----------------	-----------------	----------------

**SINK UNITS \*All floor units have a splash back of 100mm.**

Please let us know whether you would like us to order and fit your sink for you. Fitting a drop in sink (cutting the hole for the sink) costs an additional R800. Note that undermount sinks can only be fitted with stone tops. Note that the 'bin' is a pull-out drawer and does not include an actual bin bucket, so you will have to find a bin that fits yourself. Note that the space for the dishwasher is 620mm. This will fit a washing machine or a tumble drier as well. Only Butler sinks are included in the price.

Sink Unit with bin *Please specify which side you would like the bin.	1600	600	900 (+100)	R 14,207	R 19,141
